

YURT FOR SALE

3.6m cedar yurt at the 2008 price.
Brand new, ready for immediate delivery!
Needs no council approval.

We took the basic Goulburn Yurtworks design,
and placed 3 windows and 3 double doors
to suit our sense of symmetry and practicality.
Yurtworks built it for us. They were helpful and willing.

We aimed for a panoramic sense of space and view in a small space.
Versatile, it can be closed, cosy, private and secured, or
opened up to a 360 view and flow of air...merging the inside and outside.
It was intended to sit in the centre of a wide deck,
covered in awnings or sails to give a large outdoor activity space.

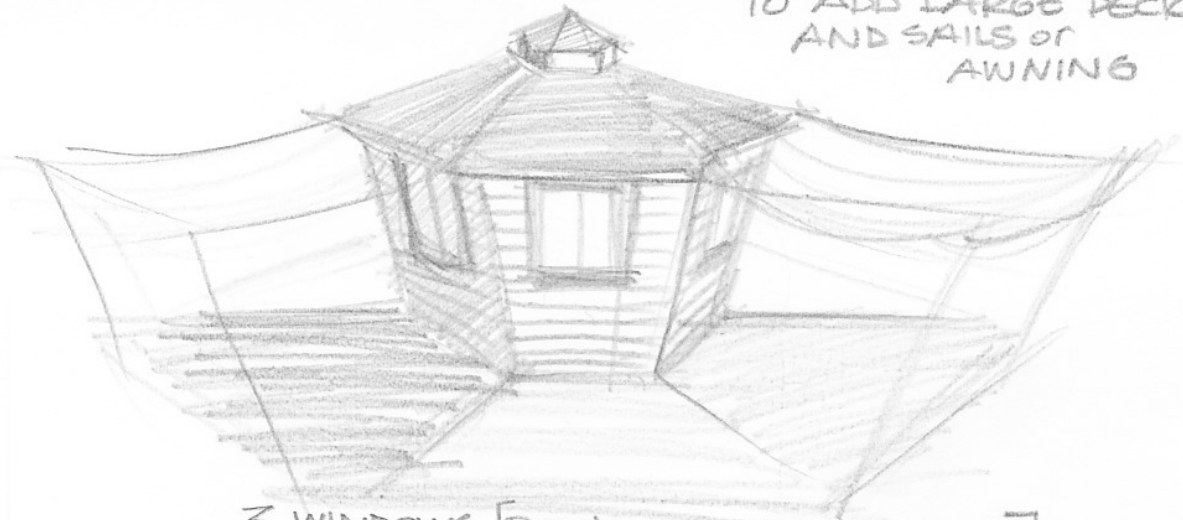

The design was inspired by traditional yurts,
Japanese symmetry and versatility, bedouin tents,
tropical dwellings with natural airflow, and mobile home design.

Perfect for a studio, office, extra sleep space,
harbourside or poolside gazebo,
holiday dwelling on your land, or as we intended...
a place to be on your land while you build your house.

You can view the design we modified at the Goulburn Yurtworks website.
Ours has insulated & lined roof, slate coloured fibre glass tiles, cupola & windows
lined walls, floor, 3 flyscreened windows, 3 doorways for glass/wood double doors

Price \$11,500. For more info call the owner on 0430 866111
